Dedication

To Our New School

The school population of the Ashley Community School has experienced a steady increase over the past three years, which resulted in overcrowding in all grades.

The completion of the new nine room elementary school will provide a welcome relief and assure a better educational program for elementary and high school pupils.

With the closing of the Kennett School which houses the Kindergarten and the Daggett School which houses part of the third grade, all pupils of the Ashley District will be under one roof.

The boys and girls of Ashley wish to thank the school patrons for providing modern rooms and new equipment.
