Key words to explain the success of the Ashley Junior High Basketball team this year are defense, discipline and desire, Although we were outnumbered in every game we played there wasn't a team around that could wear us down. This was due to the team making a commitment to excellence and then having the intestinal fortitude to pursue that goal in each and every practice. All successful athletic programs include enthusiastic cheerleaders and backing from the community. The players and the coach would like to thank all of those involved for making our season the success that it was. Be it known that you have had a hand in shaping the champions of the future.
