The Student Council is the government of the students by the students. They listen to the students problems and needs and try to solve them realistically with the results being fair for everyone. This year they were lucky to have such an understanding and caring sponsor as Mr. Larsen, to him the students say thanks.

The student council is a very important and useful body in Ashley High School. Their function is to keep students involved and caring about their school. Some of the many activities sponsored by the student council this year were: Homecoming Activities, Contests such as a pie eating contest — which was won by Mark Plesko and a water-chug also won by Mark Plesko; Arbor Day, Elections of new officers.
