If someone would have said at the start of the year we would be 9-10 at seasons end, we would not have believed it. However, inconsistency and sporadic team play never let us develop to our full potential.

The expanded league was much tougher this year as we finished third after winning the championship two straight years. Next years team will have to work twice as hard to put the trophy in the display case once more.

Although our record (3-16) doesn't show it these young men learned to be winners and be competitors. They hustled, boarded well, and played good defense. Our main problems were in the offense department as we just couldn't put the needed points on the board and an overall lack of consistency.

These young men have a long ways to go but can feel that this year they made a big step in the right direction.
