Bill Strpko Retires

The Ashley School personnel put on a retirement party Thursday January 7, 1982, to honor Bill Strpko.

His bus driving career started on his return home from service in World War II. It was supposedly on an emergency basis for a few days only but went on for not only days but months and finally ended 34 years later.

He owns Strpko's Radio and T.V. in Ashley and is the Ashley Village Water Plant operator.
