What is SADD? SADD is Students Against Driving Drunk, and Ashley High became the first school in Gratiot County to start a chapter. At this time there are 35-40 active members under the direction of President Mike Morris and advisor Mr. Steve Larsen.

To get the ball rolling an assembly was held with Mr. Larry Rotta speaking on the origination of SADD and the SADD movement.

SADD held a raffle to raise money for pins and key chains which were handed out to the students. They also put on a SADDY HAWKINS DANCE.

One thing President Mike Morris has in mind for next year is to get a sequence of posters that would supply the school a different one for each month. There is also the possibility of starting an elementary program to try to arrest the problem of driving drunk before it has the opportunity to start.
