

At School Board meetings members approve the budget requests, hear the principal's report, consider issues raised by community members and vote on proposed motions.

## Job Is Rewarding

The 1986-87 members of the Ashley School Board: (Front row) Roger Keck, Martha Miller, Joe Gavenda (Back Row) Ed Limbert, Tom Fabus, Ron Burk, Carl Wolfe.

What do you have when you mix together an engineer, carpenter, secretary, rod buster, meat cutter, math teacher, and retired Kroger manager? Answer? The 1986-87 Ashley Community School Board.

This year the School Board has tried to make improvements in the school system. For example, when the students arrived in the fall, they were greeted with freshly painted walls. The school system is also in the process of coordinating the curriculum of grades K-12. Another Board goal is to try to keep the school facilities improved and updated.

One member feels there are many highs and lows which go along with serving on the School Board. Ron Burk commented, "Sometimes you think everything is going so well and then all at once everything seems to go wrong." Mr. Burk enjoys visiting the school and seeing the students and teachers in good spirits, and often on visits that's exactly what he sees. All in all, he feels that being a member of this School Board is very rewarding!
