It Up

What's In The Oven All The Favorites

"Pizza, hamburger stew, chili and donuts; that's what the kids seem to like best," stated new head cook, Theresa Lytle. Along with those favorites, homemade rolls have always been a big hit, too. The cooks bake 1800 of them each week. When asked what some of the advantages of being head cook are, Mrs. Lytle replied,

"The kids — not just the elementary, the high school too. I like being around them." Mrs.

Lytle enjoys the challenge and responsibility of being the new head cook. For example, when an order doesn't come in and the menu has already gone out, she

has to come up with an alternative that will fit into the schedule.

While most students are just rolling out of bed, the cooks, Theresa Lytle, Florine Tupica, Gladys Patrick and Darlene Evans, arrive at 7:00 a.m. to prepare our lunch.

Part of the head cooks' job is to supervise Lori Plesko, Frank Deming, Jole Tupica, and Cindy Steffen, who come in to serve lunch for the elementary students.

Many students see Mrs. Lytle as head cook of our school, but they may not know her hobbies include going to horse races, swimming, and needlepoint.
