## Spirit Of 1992

The class of 1992 is one class that can be called a family. When the teachers are asked what makes this class stand out, they say it's their togetherness and their potential. The seventh graders are the most talkative of all the classes, yet they get their work done and do very well in school. This year Mr. Wayer promised if they all passed the MEAP test with seventy-five percent or better, he would give them a party. They met that challenge and he held to his word and gave them a party to celebrate.

The seventh graders also have a lot of school spirit. They are always willing to dress up for spirit days and even won the spirit jar at a pep assembly.

The class of 1992, with their great enthusiasm, are sure to be future spirit leaders!
