

# Taking Their Best Shot

## The Lady Bears Give It Their All

"With seven letter winners returning from last year's semi-finalists, much was expected from this year's team," remarked Coach Carl Wayer.

Coach Wayer was not the only one with high hopes for this year's lady cagers, however. Many of the team members set goals for themselves. For example, teammates Theresa Fabus and Shelly Felton set as their goal a trip to the State Finals this year. Lori Haruska's goal for the team was to be first in the league standings.

Although the girls didn't reach all they'd hoped for, they ended their season with an overall 17-3, tying Webberville for the conference championship with a 9-1 record, making the eighth consecutive year that Ashley has won or shared the league championship.

Two team members, Theresa Fabus and Lori Haruska, concluded their outstanding three year varsity careers by finishing first or second in virtually every category. Both Theresa and Lori were honored by being named to several All-state teams.

The team worked hard to make this season a successful one. The encouragement they received from one another was an important part of their accomplishments during the '86-'87 girls' basketball season.

The Lady Bears are notorious for a fast-paced game and often welcome the chance to rest for a minute and watch the rest of their team play.

Even with the frustrating game against Carson City, the Lady Bears come through, with some help from Coach Carl Wayer. During the time outs, he advises them to be aggressive, dive for the ball, and most importantly, "Don't foul!" Even though the lady cagers were outsized by the Carson City Eagles, they were able to pull through for another win.

One of Theresa Fabus's resolutions this year has been to improve her free throw shooting. Before each shot she would remind herself, "Arc it in!"
