

*One Word That Describes The Student Council Is 'Effective.'*

Mr. Schestag, Advisor

## *Assembly In Sync With Crowd*

▲ "I WASN'T NERVOUS. I'm used to acting like a nerd," commented Wes Burk as he reflected on his and Kim Morris's prize-winning performance as Bud and Belle, singing "Mockinbird."

◀ "BE MY BABY!" sings Ann Fabus, as she brings back the Fifties with her rendition of this oldie but goodie.

## *Council Works On Spirit*

"An effective student council," indeed, with projects including one of the most popular, the Puttin On The Hits assembly. This year's surprise in the assembly was foreign exchange student, Christoph Ulleweit, as he pantomimed the talented Michael Jackson. No one will ever forget his display of choreography! Besides the assembly, the student council has been the moving force behind other important projects, such as Homecoming, Twirp Week, and enhancing the school and community spirit.

This year the council wanted to try something new, something that would include the community. They went to work and decided to fo-

cus on senior citizens in Ashley, helping them with everyday chores. These chores consisted of raking leaves and cleaning windows. "It was real neat; I got to help someone who really needed help," commented Sheila Keck.

This year the council purchased display cases to hold senior composites. This purchase will help to improve the school.

Mr. Schestag, advisor, defined Student Council as "A government of the students to provide a better school and community." That's exactly what they tried to be, according to President, Shelly Felton.
