Young? Yes Normal? No

The best thing about the seventh grade class," commented Marie Shelton, the class sponsor, "is that there are so many unique individuals."

What makes them so unique? The seventh grade contains flirts, people who burn lima beans, mouthy people, girl-crazy guys, and guy-crazy girls. They also have short people, tough people, and just plain crazy people.

There are people who make fools of themselves, people who talk about teachers, guys who get in trouble and girls who have a different boyfriend every day of the week. One of them even claims to be the fastest sentence writer in the Midwest.
