## Pizzaz Of 1990

Enthusiasm is one word that describes the class of 1990. This is a class that always does its part during school assemblies. When the cheerleaders call for a class cheer, the sophomores are always on their feet. They are one class that has really stuck together, and they have the enthusiasm a class needs to do well on sales projects.

Their first sales project wasn't a huge moneymaker, but it was unique in itself — a garage sale.

They do plan to change to more traditional sales projects, however, such as candy selling. This class is surely a unique one.
