

## **“What Did You Hear About Me?” Office Girls Always Have The Inside Scoop**

Office practice is a job that can benefit a lot of kids. But on the other hand, working in the office is where you hear all the inside information.

You do have fun but there's a lot of work — for example, running errands, picking up slips and sorting mail are only three of the routine duties of office practice students. Traci also thinks filing stuff is probably the hardest job, because you can't mess up. When Traci was asked, "What's the most exciting thing you can remember happening in the office?" she said, "That's easy — It's always exciting when parents call or come in to talk to Mr. Wayer!"

What's This?

## **Another Band Teacher?**

Ashley High School has had more band teachers than Eddie Murphy has jokes. Mr. Patrick Parrish is our newest teacher, one who has done a very fine job. Mr. Parrish, who took over at the beginning of the second semester, said coming to a new school was very exciting. It was only a couple of months that Mr. Parrish had to prepare his band for Festival, but he did and they marched in and brought back a II rating. Mr. Parrish said that he was very proud of his band and their performances. Then, with a smile, he said, "Maybe next time."

IT'S HARD TO MAKE A GOOD TUNE ON YOUR OWN so Chaunda Shaw accompanies Wes Burk to see what they can come up with. Wes and Chaunda are practicing "Looney Tunes" for the senior marching band show. All seniors played percussion for this show.
