

Most teachers from bigger schools look at teaching as just a job. At Ashley, however, it's more like a life! Bob Emery will always cherish the memories of Mrs. Shelton and him trying out his new Nintendo tape. Mrs. Shelton had Bob bring the tape to her home on the weekend so she could share the joy of his new present.

As anyone can see, Ashley is more than just a place where we come to learn — it's an experience to encounter!

TEACHERS GET INVOLVED! Mrs. Shelton enjoys helping her students, Ben Stevenson, Bob Emery, and Dee Dee Scaggs, make model airplanes. Dee Dee commented that it was fun and it taught her that she had to be very patient when working with the smaller parts.

GOING IT ALONE! Cyndi Surdock is the only student in her clerical studies class. Cyndi said that she definitely learned a lot more. It was one of the more difficult classes she had but was obviously worth it.

GET YOUR WORK DONE is the motto of this year's seventh grade math class. After their work is done, Miss Goodell lets them play connect four, a math game. Chad Huntoon tries to outsmart Kevin McElhaney. Miss Goodell likes the incentive it gives them to do their homework.
