

No Snooze For Them, It's

Up And At 'Em!

It's 7:00 a.m. and the alarm clock rings. You hit the snooze, right? Wrong, if you're already here.

Even though getting up to work may sound like a bad deal, there are some good aspects of the job. The cooks agree that one of the best parts of the job is the kids. Theresa Lytle stated, "Being around the kids keeps an old person young at heart." Gladys Patrick has been working here for twenty-eight years, and plans to retire in two years. The best part of the job for Florine Tupica is the paycheck!

The cooks take care of the kitchen, but Duane Saylor and Jim MacClennan are the janitors who get things heated up for the rest of us. They also clean up the gym and get it ready for games.

Connie Johnson and Leota Long are the janitors who come in when we go home, to clean up after us. Leota remarked, "I'd rather work during the day, so I could spend more time with my daughter, Becky." She manages to find time to spend with Becky, and she and Connie get the school cleaned, besides.

It's the students and teachers who add life to our school, but it's the cooks and janitors who keep our school going.

BREAKTIME!!! Connie Johnson and Leota Long pause to take a break from cleaning the high school and elementary. Connie and Leota sweep out the desks, and vacuum the carpets.

SPORTS, ANYONE?! Custodians, Jim MacClennan and Duane Saylor pull out the bleachers for the basketball game. Other jobs they have are cleaning up the popcorn and wrappers from under the bleachers and mowing the baseball, softball, and football fields in the spring and fall.
