

Students in art club, drama club, FHA
 Work hard and play hard
 They also give Ashley plenty of

Excitement And Challenge

Mrs. Marilyn Gearhart sponsors the art club and the drama club. She likes sponsoring these groups because she gets a chance to work one on one with the kids. She gets to watch kids grow and watch shy kids blossom.

All the art club members are creative and hard working. "You get to work on whatever you want," Ann Miller says. They also learn how to do new things like ceramics and doll making.

Members of the dra-

ma club are hard working. But performing their play in front of an audience is their greatest reward. "You don't have to be yourself, you can be crazy!" says Shelly Muscott.

Mrs. Connie Bongard sponsors FHA and likes the services they do for the school and community the most, particularly the valentine kisses they sell every year. She says one of her rewards is the many humorous memories. In the FHA, members also get an early start on thinking about

their future and where they want to be. FHA builds character and confidence and all you need is motivation, participation and a willingness to be outspoken.

These organizations are what make Ashley as interesting, exciting, and diverse as they are for a school this size.
