

B And Hopes To Be Great!

With A Lot Of Individual Talent

With a second new band director in two years, most people would expect something might be wrong with the band. According to Mrs. Diana Wilhelm, the new director, that is far from the case. She speaks very highly of both the senior high and junior high band. She commented, "Both the bands have individual talent. The junior high had two first chairs at

all star band this year, and the percussion section is very strong."

Mrs. Wilhelm had only good things to say about the senior high band, also. She claims, "They are starting to play with more pride. They are working as a group." Kelly Lytle affirmed, "We are starting to play as a group."

Festival is an important part of band. One

of the key elements at festival is to be able to sight read. That is, to take a piece of music you have never seen before and play it. Mrs. Wilhelm says, "The senior high is very good at sight reading."

Individual talent is what our band has, according to Mrs. Wilhelm. "Now that they are starting to play together, they're going to be good."
