

A BIG KISS is what a flirty Jim Drummond gives to Roger McElhane during Twirp Week. Jim really got into his character during Opposite Sex Day.

WAS THE STOMACHACHE WORTH IT? Jeremy Saylor and Ellis Mason use their large appetites to try to bring their class to a victory during Twirp Week. This contest is an annual event during Twirp Week's lunchtime activities.

WHAT'S HAPPENING?

We don't go to school just to be in class all day, but also to enjoy being with friends and participating in extra-curricular activities. We may choose to play basketball, be in FHA or join art club, but these are just a few of the many opportunities for us to get involved at Ashley High. Our school is a great school for involvement since there are a low number of us

and it is unusual for one of us to get cut from a team or not get a chance to participate in an event.

In general, most of us spend more time talking to friends and participating in activities than we do studying or doing homework. Therefore, when we graduate we don't generally remember lectures in algebra, family living, or chemistry but the fun

times with our friends. We are more apt to remember that last football game, senior prom, playing pranks on teachers and friends or just being with friends. Participation and socialization are an important part of our lives and no one should be denied these greatest experiences of growing up.

"Our school is a great school for involvement . . ."
