

# ATTITUDE? Whose?

EVERYTHING'S BACK TO NORMAL! One example of changing attitudes is Sarah Deming and Kerri Sperling. After their infamous fight this year, the two talked it out! Now they're good friends!

## Why Is AHS Unique?

It's our many distinct Ashley attitudes!

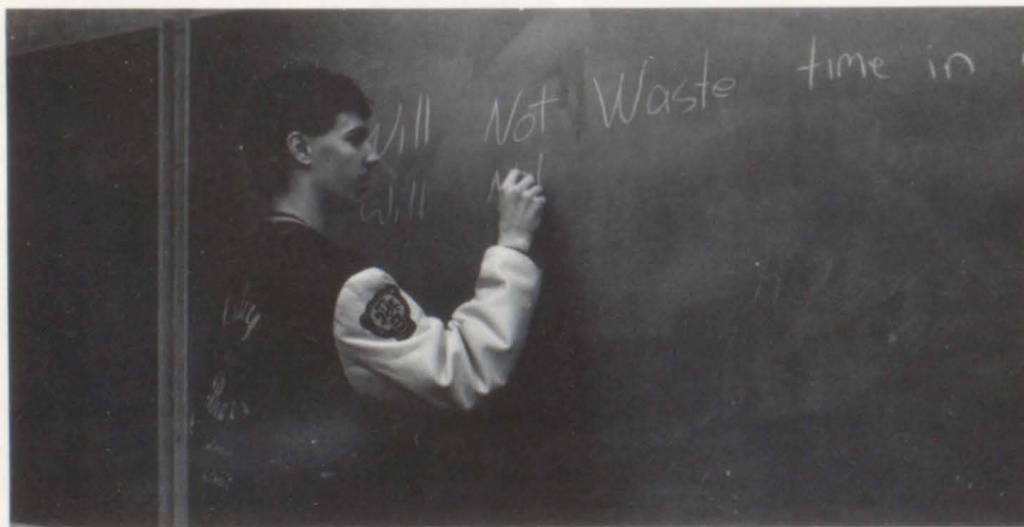

Look around you. How many attitudes do you see? At Ashley, there are a lot of attitudes to choose from, and no two are exactly alike.

Attitudes are a very important part of everyone's personality. What you do has a lot to do with how you act. If you're a member of a winning sports team, that's reflected in your attitude. If you live east of Ransom Road, your disposition would definitely be different than if you reside in town or in the farm country to the west of town. If you study, every night after school, your outlook on

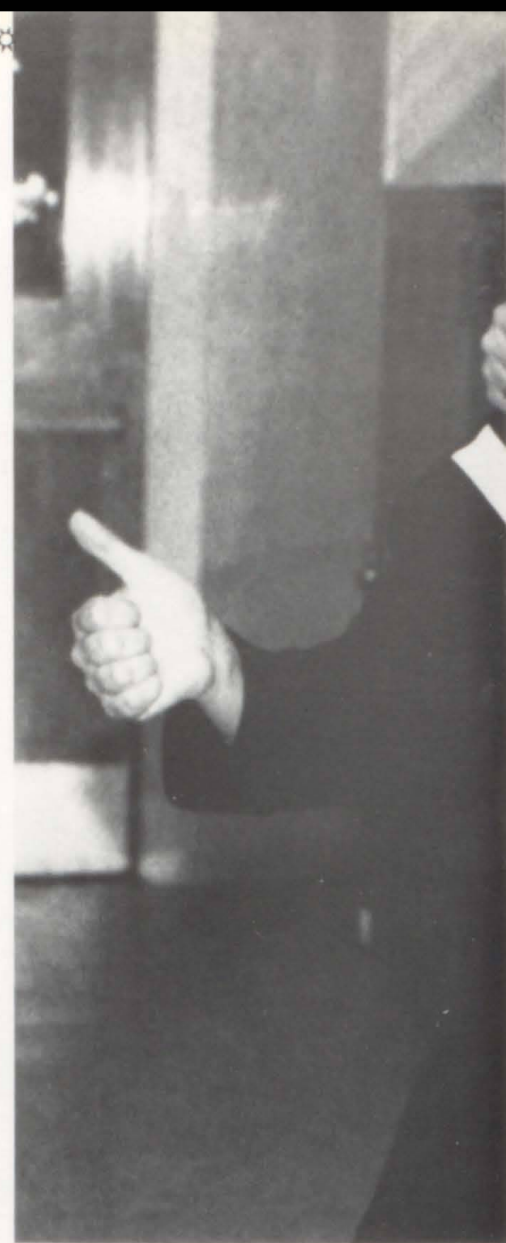

school is different than if you spend all of your time working or playing sports.

Attitudes are displayed in a lot of other ways, too. The attitudes you see in eighth hour detention are not the same as you would see in chemistry class. What you wear shows your attitude. And of course, like everything, attitudes can change.

At Ashley, there are many different attitudes, and the attitudes are a big part of the people. Whether outgoing or quiet, cocky or humble, everyone at Ashley is definitely his or her own person.

I WILL NOT WASTE TIME IN CLASS . . . Sometimes your attitude can get you in trouble if it's displayed in the wrong place. But Joe Merignac finds out that a few sentences never hurt anyone!

WHO'S THAT GIRL? Luella Paksi is one senior who doesn't hide her attitude. She displays it proudly with the outrageous clothes she wears.
