

Hard Work + Support = What?

The 1990-91 JV team going that extra mile

What does it take to make a basketball team? Uniforms? Yes. Coaches? Yes. Players? Yes. Fan support? What? This is something that this year's basketball teams didn't have much of. Although they were thankful for the support they had, they wished they would have had a little more. "Morale always helps the team feel better about themselves," said An-

gie Brzak. A large cheering section helps build team confidence. Of course, the fans don't make the team win, but they do make them feel better when they do win, and cheer them up when they don't. It is true that fans are important in the life of all athletes, whether those fans are parents, grandparents, students or friends, they are "Number one."
