WHO SAYS HOME EC IS JUST FOR GIRLS? Macho men Brett Paksi and Jim Drummond display their immense superiority in potato peeling during Mrs. Bongard's foods class.

Student Life

Academics And Events

Sports

ALL that happens at school has to do with Student Life. THIS is what we really come to school for. It makes the TIME we spend at school fly by a little faster. Prom, Twirp Week, organizations — these are all included in Student Life.

How do we measure our success in school? It ALL depends on academics. Isn't THIS what we spend most of our TIME working on? And everyone knows that school wouldn't be of any interest without events. They make school worth coming to.

Sports are a big part of school life, too. We ALL enjoy going to a ballgame, whether it's to participate or just to watch. And even though THIS takes up a big part of our free TIME, it's all worth it.
