“
The girls were a
close knit team.

Jim Lytle

”

Rain or shine, softball is still played! The girls' softball team proved that this year. At the beginning of the season, they had to have practice on the football field for at least one week or at least until their first game. The first game was the first time the girls had played on their field that season, even to practice.

As the season progressed, they worked together as a team and made their games fun for each other. The down side was that when one girl

got down, they all did. Most of the time, however, they tried to pick one another up with motivation and spirit. The one thing that surprised most coaches from other teams about the girls' softball team was the way they kept smiling after they'd lost. They did keep their heads up and their spirits held high, no matter who won or lost. Kelly Lytle summed up the season by saying, "We created a lot of great memories."
