BUMP, SWISH, TOUCHDOWN

Talent, Desire...These Kids Own The Game

Ninth grade. A time of changes. Things that didn't used to matter suddenly take on new importance.

Take sports for instance. To these athletically-oriented kids, staying active is very important. "I like sports and I like competing with other schools," commented Kristie Spencer.

Yet everyone seems to enjoy sports and have the opportunity to learn from others. Brandon Krueger said, "I really enjoy being able to learn from all the older players."

Obviously, these freshmen have that special ingredient which makes for a successful team.
