## TEAMWORK DOES THE JOB

Teamwork and discipline. Two of the major elements in life whether it be school or work. Quiz team requires both these elements in order to run smoothly.

Why is teamwork so important? "Because there's such a wide range of topics covered in the meets we attend, it is impossible for one person to know everything. Having a well balanced team with members specializing in certain areas helps to make a team successful," reflected Mrs. Karen Martinez, team advisor.

### THE WINNING COMBINATION

The High School Quiz Team. A mighty empire of the all-knowing coming together in a meeting of the minds.

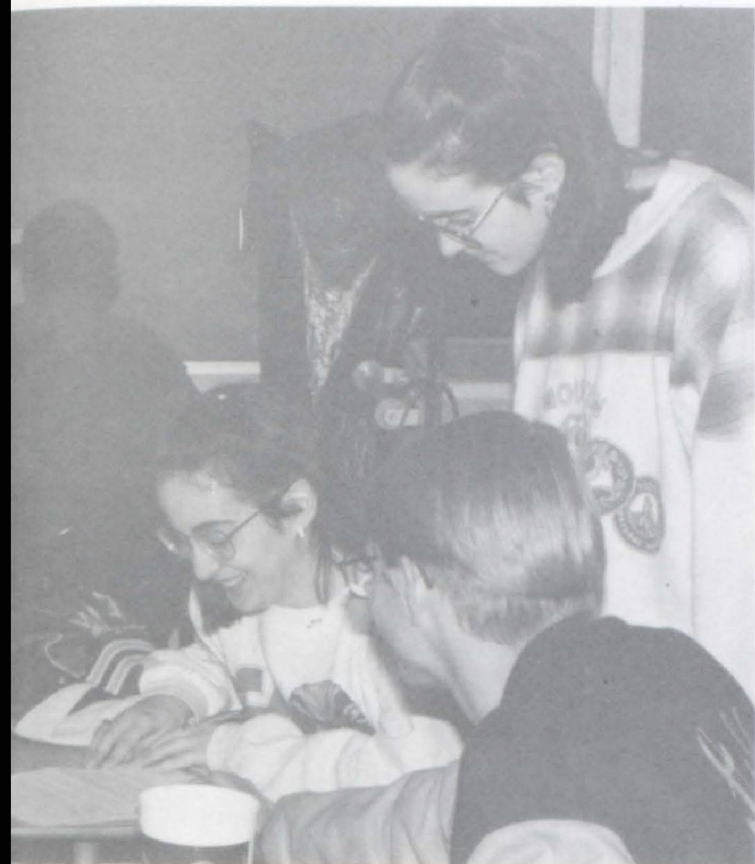

Okay, so they aren't the all-knowing, but this quiz team definitely had what it took to make a winning team. They participated in five area quiz bowls this year, and although they never won a tournament, they did win individual matches.

To what do they attribute their success? "I think it was more experience, as the year wore on and they attended more meets," remarked Mrs. Karen Martinez, team advisor.

Teamwork cultivated friendships, and from these friendships came the drive and the ability to win under pressure.
