

Good Grades

Hard work and dedication pay off!

Although sports are fun and everyone enjoys participating, they are not the only important things in high school. Getting good grades and doing well in school will enhance your chances of getting into the college of your choice to further your education. Good grades take a lot of hard work and that effort should be recognized.

Each year at Ashley we honor those students who have achieved those academic honors with an awards assembly attended by parents, grandparents,

and faculty. Sophomore parent Gloria Keck commented, "I am pleased to have had both of my children chosen for the National Honor Society." There is also a scholastic banquet held where students who have excelled academically are honored. Those who have been tapped for the National Honor Society are formally inducted with special ceremonies.

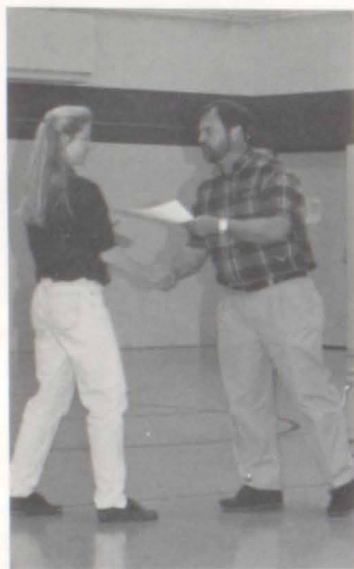

The junior high is also honored with a breakfast which is prepared by the National Honor Society.

ALWAYS COCA-COLA! Sarah Brzak accepts a \$500 scholarship award from student council advisor Mr. Gary Schestag. Every year the Coca-Cola Company and student council sponsor this award.

I MADE IT, I REALLY DID! Dynean Payne breathes a sigh of relief as she signs her name in the National Honor Society book. Signing your name means you're officially IN!
