hanging! together

Just when you thought you couldn't bear to take another set of notes, RING...IT'S NOON!!

To students, what are some of the most memorable moments of high school? It probably isn't that 10 page essay for English, or that big algebra exam! Most people remember lunchtime. Students feel that this is the only time they have to relax, talk with friends, and have fun. Sophomore Lisa Maier said, "I think of lunchtime as a break from the rest of the day, just a time to have fun with friends."

This year, once again, both of the gyms were open for

students to play sports or just to sit and talk. Freshman Tom Jungnitsch said, "It's my favorite part of the day, the only time when I can mess around without getting in trouble with teachers."

After graduation, when students are asked about great, high school memories, they will no doubt remember all of those great times spent together with friends.
