## Student council revamps Twirp Week, producing a fun-filled success

What was different about Twirp Week this year? A lot. "In the past few years, Twirp Week had been getting very monotonous. We took it upon ourselves to make it more interesting for the students," commented student council President Tony Bush.

And a lot more interesting it was. New events were added to traditional ones. The student council had the relays, but most of them were changed. The teachers' team was also included this year in the relays and the pie eating contest. This resulted in a

very memorable incident. "The best part of Twirp Week was when Mr. Stevens and Lisa Maier got into a pie-throwing fight during the pie-eating contest. It was really funny," said Sarah Wayer.

In addition to these changes, there were new dress up days. The traditional Blue and Gold Day had to happen, of course, but Rewind, Foreign Dress, Hero, and Heart Day were added. "Mrs. Reichard's costumes stuck out the most to me, because she had really weird ones every day," added Sarah.
