SERVE IT UP! Cassie Worden serves the ball during one of the eighth grade gym class's many volleyball games.

All classes have one thing that separates them from the rest. The eighth grade is no exception.

What makes them unique is that almost everyone loves to play sports. "I like sports because they're fun and I like taking out my aggression," commented Kevin Fabus.

Unfortunately, not everyone had the chance to take out their aggression in the game. For example, Lissa Czeiszperger cited her most memorable moment as, "When I got suspended and couldn't play my last game."

On a more positive note, Roy Burgett had a pleasant memory. "My most memorable experience was when I hit a last second three-pointer to go into overtime in the tournaments."
