The ninth grade class has often been referred to as the "love class." Kristin Mepham summed up the reason when she said, "Our class gets this reputation because everyone is usually talking about who would make the best couple, how long people have been going together, and sex."

How much time is actually spent thinking about the opposite sex? "I spend 99% of my time thinking about girls, and the other 1% deciding where to go for them," commented Shaun Schreiner.

This is a class with many crushes. Some don't mind sharing who they like. "Right now I'm interested in Terri Kral. She's pretty, nice, and smart," said Matt Crumbaugh.

Others are shy and less eager to admit who they like. "There's someone I really like, but I'm not saying who. He's cute, athletic, nice, and is very sweet!" added Heather Polash.

COLLECT \$200. Mindy Wallen, Terri Kral, and Carry Felton play Monopoly during their English class to pass time during a free day.

J. McGillis

REALLY? Eric loves Terri? The freshman class loved match making people during the first semester, though some of the couples may not have agreed.
