

GETTING AN EDGE

This year there was a new addition to the sports program... the junior high volleyball team. Now junior high players can get an edge on moving up to the next level.

Junior high volleyball coach, Miss Kristy Yodzevicis, feels that her best quality as a coach is that she par-

ticipates in practices with the players. However, she stated, "It has been a learning experience on my end and on their end."

Junior varsity players got a jump on grabbing a varsity position by showing their talents throughout the season. The team displayed a 91 percent

setting percentage, a 71 percent spiking, and a 79 percent serving percentage for the year.

Junior varsity coach, Deb Schestag, commented, "I enjoyed getting to know some of the girls that I didn't already know."
