

Prom continues on even **After** the **dance**

What is the prom experience all about... being with friends, dressing up, a romantic atmosphere? Does the prom experience end at the conclusion of the dance?

"My favorite part of the prom experience was dancing with my senior friends for the last time, and sharing a good time that will never be forgotten," stated freshman Angie Simone.

Some people may believe that these things are what the prom experience is about. However,

others may look at it a little differently and say that the prom experience is more than just what goes on at the dance. Angie commented, "We went to see *Scream* because I was having so much fun that I didn't want it to end."

Missie Dennis said, "After prom my date and I went to a party. Then at 3:00 in the morning we had breakfast before going home."

Missie and her date weren't the only ones having breakfast at the wee hours of the morning. Twenty-five other promgoers met

at the home of Jim and Marcie Fabus to enjoy a homecooked breakfast prepared by a few seniors' parents. Parent/teacher Marcie Fabus stated, "Several of the kids helped furnish food so it worked out well. I enjoyed it! The last person left at 4:00, so it was nice that they stayed that long."
