# Season of change

Feelings... memories... change; these are a few of the words that describe the 1996 football season at Ashley.

This year marks the end of an era at AHS. It was the last year that football would be played on "Old Bear Field" because of the updating of the school. Next year the field will be the new school parking lot.

People have strong memories of this field. Brandie Burgett, sports commentator, recalled, "The last game was sad. I realized that it was my last game and I was proud of the team for making the last game memorable by winning."

Other memories of this year included senior Kevin Gavenda hav-

ing another great season. Kevin broke the 3,000 yard career rushing mark. About his achievement, Kevin remarked, "I think that it was a full team effort; the offensive line really helped!" Freshman Kevin Fabus recalled his memories of the season by saying, "I really feel the pride in playing football. I'll never forget that feeling."

"Playing football has really had an impact on me; it taught me teamwork, respect, and self pride. I will never regret playing," commented senior Ben Crocker. All of this together made yet another memorable Ashley football season.
