Desire = results

The JV basketball teams had winning seasons this year due to their determination and desire. The boys went 15-5 this season and the girls had a comparable 12-6 record.

The junior varsity basketball teams both went undefeated in league play. This was the girls' second year in a row with an untarnished record for league. The boys, on the other hand, really improved over last year when they finished 5-7.

Coach Michelle Moore commented, "This season was filled with its ups and downs. We showed improvement, but if we would have been better from the charity stripe our record would have been better." The girls shot 45 percent from the line this year.

Both JV basketball teams punished the opposing teams with their fastbreaks. "Our speed and perimeter shooting were the two things that really helped us be a dominating team this season," sophomore Eric Fabus recalled.

The teams' hard work in practice shined through in the games and gave them the extra boost when the games were on the line. The boys pulled off the win in the last few seconds against Fulton when the scoreboard read 47-45 at the sound of the buzzer. The Lady Bears also squeaked by Fulton with a 39-36 win.
