Energetic, funny, jokesters... these are just a few words used to describe the ninth grade class.

In the hall it is easy to spot them right away, laughing at a new joke or goodnaturedly teasing each other. Josh Adams said, "We're very competitive, and like to show each other up."

This class is also a standout academically. A good portion of the class receive a 3.00 point or higher.

students are as sneaky as they are smart. Co-class sponsor Mr. Steve Larsen stated, "I remember when we were sorting nuts for our fundraiser, the students were accidentally dropping them on the floor. They couldn't put them in the bags and they couldn't just throw them away, so, of course, they ate them."

This is why the ninth grade class is a package deal.
