

Tuxes+ Dancing+ Magic=

Party time

The one night of the year that the sky can fall onto the Earth, and it's a normal occurrence... prom. No matter what happens, it will always be considered the most magical night of the year.

"The craziest thing that I did at prom was moshing in a dress!" commented Lissa Czeiszperger.

The 1999 prom was filled with strange antics, goofing off, and just plain fun. These events happen at every Prom making it even more special and helping the memories live on forever.

Whether it be dancing with your friends or just hanging out, the prom experience is one that no one should miss out on in their high school years.

"I'll never forget when a bunch

of us guys picked up Jonathan Whitford and used his legs as a guitar, and then we tried to split him like a wishbone, but it didn't work," Tim Slaughter remarked.

The juniors worked hard to put on the night that was so exciting and full of incredible moments. "The work was worth it. Once I got there and it turned out great, it proved how much work we really did put into it," said Valerie Miller, the class of 2000's president.

Prom is definitely about going there to have fun, goof off, and be with your friends before your high school years are over. Prom seemed like the last moment that the senior class would be together outside of graduation, and it was really a night full of excitement and magic.

The magic of prom is really created by the people there, not the surroundings or the novelty of it all but the people with their strange antics, smiling faces, and unique dance moves. "My favorite part about prom was being there with my friends," commented senior Diane Surdock.

Twenty years down the road when the members of the class of '99 are looking back in their yearbooks, reminiscing about the times past, they'll remember all of the great moments such as prom and realize that their high school years really were the best years of their lives.
