Kickin' back, taking it easy, and just having fun. These are some of the qualities that make up the personality of the eighth grade class this year.

"Energetic!" is the only word sponsor Ms. Jennifer Brown could discover to describe this class; however, during this year's Homecoming week, their traits of being laid back and taking it easy were also pretty evident. "We

weren't working on the float so Jimmy Halsey decided to spray paint 'Ashly' across the bear's forehead," reflected Megan Diffin. Most classes will have memories of winning events, but this class will remember how much fun they had this year."
