"A lot of individuals," was **Mr. Starry's** comment about the freshman class. "I think there is a great deal of potential in them," he also stated.

The freshmen were not always a perfect class. There was a time when **Mr. Starry** wasn't as happy with them. He reflected, "They didn't make any effort in their seventh grade year, but the students are starting to take

more involvement now, and are actually making an effort."

"Our class is not always orderly; we are still at that age were we need to grow up a little. But we are coming along and making an effort, by staying by each other's side and helping each other through ups and downs," commented freshman **Katie Beck**.
