

# At-titude

"I like the contact of the sport, and I like having to push myself to be the best," said junior high football player **Caleb Follett**.

Coach **Todd Starry** had a different perspective. "I thought we had talent, but they didn't play together," commented Starry. Attitude is everything. Sometimes it can be instrumental in winning the game, and sometimes it can mean losing the game. "Coach Starry tried to teach the whole team to understand what it means to have a good attitude," remarked Follett.

The game that stuck out the most to the team was with Chesaning because "We had an attitude that we had nothing to lose because they were varsity Class B State Champs, so we played the hardest," stated **Justin Lindquist**. Even though they played hard they lost, 12-6.

Everybody likes to have a sweet tackle; it's just part of the game. "It's fun making a good tackle on someone," remarked Justin Lindquist.

A lot of people get prepared in different ways. "I listen to really heavy mu-

sic," said **T.J. Good**.

Everybody who plays football will always have a memory to look back on. Good remarked, "I caught a pass for 20 yards." He also remembers the game when they were on the one yard line and they passed the ball and missed the touchdown. He felt that they should have run for it instead of passing because they were getting good yardage on the ground.

Every year has its low and high points. Coach Starry explained "The low points were not getting to win a couple of the games we should have, and the high points were seeing more offensive production."

The team went 0-4 this season.
