"These girls have heart," stated third year coach **Sherry Reichard**.

After coming out and winning the first two league games, the girls knew they were in for a good season. Though not a well-known fact, the girls' team came in second place in the league behind Vestaburg, and finished with a 7-8 match record, and a 19-20 game record.

The team professed to having no serious conflicts during the season. "We all got along for the most part." The only problem that arose along the way was when a few girls decided to start skipping practice, but this was dealt with and everything was okay.

Although these girls look all sweet and innocent on the outside, you'd better watch out. When **Heather Jones** was asked about her most memorable moment of the season, she stated, "It was when I spiked **Linda Gall** right in the face during one of our practices with the varsity. Coach Reichard added, "I believe this was just one of the moments when this team's natural ability to play shone through."

Something to watch for was the girls' serving; during the season they managed to get 104 aces. This averaged out to be a little over six per match.

About the only low points of the season were not having enough people and having to scrape people together just to play. **Kari Bearden** was picked up part way through the season just so they could have enough people to play.

Although the girls didn't win any big tournaments, they knew deep down that they played hard and did the best with what was given to them. The girls had fun and that is all that matters at this point.

-Jesse Diffiin

COME ON, GIRLS! Heather Jones gathers her team around for a little pep talk. Heather commented, "Sometime that's all we needed, was to regroup and gain a little composure."
