

Un-stoppable

Softball is a very intriguing sport. That is, of course, if you have enough people. This was a major problem this year as the girls only had nine people on their team. Sophomore **Lyndsay Goward** remarked, "When we didn't have to worry about having enough people to play, we weren't as stressed out and we played better." Senior **Kristin Bornemann** commented, "One of our goals this year was to have enough people to participate."

On another note, though, the softball team had a lot of fun. **Jill Cermak** said, "The most fun we had this year was when we just practiced sliding into the mud." Lyndsay also commented, "Having practice in the mud was so messy and fun."

There were also some bad things that happened to the softball team this year. One thing was Lyndsay Goward getting hit in the jaw with a softball. Lyndsay stated, "My jaw got messed up pretty bad, but on the bright side I got a nice ambulance ride." Kristin remarked, "It was tough losing a lot of games this year but we still found ways to have fun."

The girls also had some goals this year. Kristin remarked, "Another one of my goals was to have fun; that is one of the reasons I chose to play softball is it is fun and enjoyable."

Lyndsay commented, "A low point of this season was a lot of our games being canceled. This didn't help us any because in a lot of our games we either struggled in batting and/or fielding, and if we would have played these games, it would have really helped us."

As anyone can see, the softball team lost a lot of games this year, but they kept their heads on straight and had fun.
