If you were to ask the walls about the friendship in Ashley High, they would tell you about the close-knit family-like atmosphere that we have. "Even though most students may not show it, we are all connected in some way," stated **Amanda Barror**.

The students are not afraid to walk around looking goofy or talking to anyone they pass. Ashley has a way of making you feel comfortable with yourself and others. You don't have to worry about actual fist fights or any other threats; even though we have our arguments, we settle them calmly. "If you need a friend, be a friend," stated senior **Miranda Coon**.

The teachers add a very positive attitude towards the students as well. They are always supportive with any help that we ask for even if it is not about class work. They help us realize it is possible to work with someone and still connect. "At Ovid Elsie there are more cliques and you would always find a fight in the lobby," stated first year Ashley student **Amy Walter**. "Also, Ashley students are there to greet new students in a friendly manner." Another new student, **Heather Jones** added, "There were bomb threats in Corunna, and the fights were bloody fights not verbal fights that you find at Ashley."
