

NEVER QUIT

The girls varsity basketball team never quit, no matter what the circumstances . . . true winners.

-JOE SHAW

"Frank was and is the best coach I have had. He takes time out from his daughters and treats us just like family. If there was one thing I liked best this year it would be having a coach who cares," remarked **Jill Cermak** about her coach **Frank Sourek**.

On the other hand, **Lyndsay Goward** commented, "The thing I will remember most about this year is to learn from my mistakes and from my team's mistakes and we WILL be better next year. After seeing the desire in the eyes of my teammates, I know we want it and it's our turn to have it." The girls turned the desire they had this year into a

3-17 record. Their record this year, though, didn't reflect how hard they worked. Jill stated, "It seemed like we worked hard in practice, but just didn't get the results come game time."

Katie Beck disagreed. "I felt we didn't work hard enough in practice, and goofed off too much in practice, and this is why we didn't have the results at game time."

Lyndsay summed her opinion up in a few words, "We just didn't work together as a team." On a positive note, the girls did have some bright moments. One was when they defeated Montabella two times. Lyndsay remarked, "Montabella

was good but we were better."

Another key moment was finishing their first game of the year against Chippewa Hills in the old gym. Although the humid weather resulted in a slick floor in the big gym, it didn't, however, hinder the girls' success. Jill commented, "Our best game was our first game that was played in the old gym against Chippewa Hills. We really played like we wanted to be out on the court with them."

Katie also stated, "Playing in the old gym fired us up because everybody was so loud."
