

J. Diffin

This year the student council planned a kickoff for spring break. They took all of the students to the Ithaca Town & Country Bowling Alley for a bowling and skating party. It gave the students something to look forward to after the long, boring winter; this year the annual bowling/skating party was on March 30, 2001. The student council paid the cost for the students, \$4.00 per person. "I went bowling and came in second place after Ms. Moore, and it was only the second time I had ever been bowling," said **J.R. Wright**. There were lots of things for the people to do, including

YOU WIN! "I like to play action games and hang out with my friends," said **Jeremy Owen**. Jeremy played video games while **Jason Mora**, **Josh Mora**, and **Ron Boucher** wait for their turn to play after him.

bowling, skating, playing pool, and playing video games; they could also bring money if they wanted something to eat.

"I went skating because it is one of my favorite things to do," stated **Amanda Deming**. The teachers also had fun. "I look forward to the bowling trips, I like having the afternoon off school," commented **Ms. Michelle Moore**. This year Ms. Moore had just had surgery on her

shoulder and had to bowl with her left arm. She still won the game.

"I did pretty much everything that there was to do at the bowling alley. The one thing that I did and had the most fun doing was rollerblading because I'm good at it. I will also miss not being able to go to the bowling/skating parties after this year," said **Aaron Schulz**.
