

# Making Musical Memories

J. Cermak

**PRACTICE MAKES PERFECT** Band director **Ms. Sara Potter** directs the band during a practice at school before their last concert. The band had a concert for parents and friends.

What do most people remember when they think of their high school band? I bet they don't remember that they could count the number of kids in band on their fingers. Ashley's band is small, but the music they make is large. At music festival, the band received several compliments on their music. People couldn't believe that twelve kids could be as loud as a thirty piece band.

The senior band also received a lot of support from people in our community. Many parents and friends
