Fun Times Equals A Year of Memories

Let's face it, everything changes at school. Teachers, classes, even friends change sometimes, but to students what are the most memorable moments of high school? It probably isn't that 5 page essay for English, or that big algebra exam. So, what is it? *Amanda Barror* said, "When I look

back at old memories, they are always the good ones. You remember the good in people, not the bad."

Those fun times spent with your friends and classmates are what you will remember and cherish for the rest of your life. *Nichole Ringle* remembers the times she was

goofing around with *Tiffany Oswald*. "Tiffany will be walking down the hall and then pretend to just collapse. It's just so funny."

Whether it be the times spent with your friends or girl/boyfriend, school is always full of memories to remember.
