

Service Learning

When you walk through the halls in Ashley High School, you most likely will see students doing a variety of different tasks. Everything from answering the phone in the office, to serving up some lunch in the cafeteria, the students do it. A lot of what goes on in this school is a direct result of student involvement and dedication. So the next time you see someone doing something that benefits this school, stop and thank them.

WOW, THAT'S INTERESTING!
Andrew McBride, a cadet for **Ms. Moore**, does some research on keyboarding.
