If you were to go up to any of the football players and ask what they put into one year of playing football, you might just hear, "Everything we had to give."

The season starts as soon as it's over. They start to look forward to the next season, and in preparation began to go to the weight room. That's where the bonding begins.

When summer comes they start their preseason conditioning. Five days a week they meet at the same place to begin what might be the dream season.

This year to see how our athletes, could compete with others in the country, 12 of our best went to the Minnesota Tice Brother football camp. Out of a thousand athletes only 30 were picked to be the finest. Out of that 30, 3 of them came from Ashley. They were **JJ Cooley**, **Craig Densmore**, and **Jeremy Polash**.

Once again to make the team even closer before the season officially starts, Coach Hunter and Coach Knare took the team up to Grand Marie for a week of relaxation and bonding. Other than occasional mishaps, everything went smoothly.

-Jeremy Polash-
