This year the returning league champs came into the season with high hopes of winning another league championship. The league was changed and some new teams were added, making another championship a little harder for our Lady Bears to achieve.

"I still had high expectations for the team. The new teams weren't that much better than us. If we would have gone into the league tournament in first place, we would have taken league. We just didn't play when we really needed to," stated Coach Michelle Moore.

The team benefited this year with some new players. Ashleigh Kaufmann came on to the team ready to block, which is something the team hasn't had in a while, and Nikki Limbert came with an awesome hit, and the ability to serve.

"I was another person that had high expectations for our team. I feel that if we would have played to our potential every game then we definitely would have taken the league title," quoted Megan Diffin.
