BEARS ON THREE! The Lady Bears take a team huddle before the beginning of their second game against Vestaburg. Coach points out a few things and gives the team some pointers.

This year's season went along the lines of last year. There were twists and turns that this softball team took to make the season work, along with the sacrifices that were made in order for this season to turn out. Many of the games were cancelled because of the weather and the rain. Also the team had some problems and had to go through a rebuilding stage in the middle of the season.

"A lot of people quit and we had to start out fresh again. We had a lot of youngsters on the team that had to be taught some of the basics. We didn't end up winning any games. We only tied once with the so called 'old team,'" stated sophomore **Stephanie Beck**.

The team invited some new faces to join the team, freshmen **Toni Long**, **Jessica Campbell**, and **Erin Koppleberger**. These girls weren't on the original team, but without them we would not have a team, so our thanks goes to them.
